About Alcon

A career at Alcon is like no other. We are innovative. We are impactful. We are the largest eye care medical device company helping restore sight and allowing millions of people worldwide to see brilliantly. We have a long history of industry firsts and a diverse highly talented team that keeps us on the cutting edge.

About the role

The QA Automation Engineer will work closely with the Product Owner(s) and solution teams on defining User Story test criteria, authoring test cases, executing various phases of testing (including OQ/PQ & regression), and automating test cases whenever possible, with the goal of producing a high-quality solution and the best user experience possible for our customers.

What you will do:

Perform various phases of testing, including; unit, system, integration, regression and functional testing and acceptance

Ensure that all required testing deliverables are created including testing approach, testing scenarios, conditions and expected results, acceptance criteria and test scripts

Execute formal review cycles including informal review, formal review, testing sign-off and quality assurance review

Manage test environment and test data, as well as integrated systems test data

Ensure Agile User Stories contain appropriate acceptance criteria and regression testing requirements, prior to releasing into the backlog

Who you are:

At least **5+ years** of applicable **testing experience**

3+ years' experience in utilizing Agile development methodology

2+ years' experience in Atlassian toolsets (JIRA, Confluence)

3 years of experience in RDBS/**SQL**

1 year of experience in **Python** or Java

Knowledge of automation testing

Bachelor's degree in computer science, Information Technology, MIS or Business Administration or a related field

Fluent **English** – written and spoken.

It would be nice if you have:

Bigdata/ETL/SSIS background

AWS cloud knowledge

Experience in Tricentis' Tosca Automated Testing software

Experience in Tricentis' QTest Test Management software

Cross-platform integration testing experience

What we can offer you:

Very competitive salary level with flexible contract options.

Market-leading performance based annual bonus.

Attractive package of benefits.

High visibility across Digital, Technology and Data hub, as well as across businesses.

Possibility to grow your own team and introduce engineering best practices.

Opportunity to work in a high paced agile environment and the chance to work with people who are passionate of delivering outcomes and a culture of simplification and ownership.

Flexible working hours and remote work possibilities.
