Senior Software Engineer - AI Training

Apply Now

Company: Remotebase

Location: Poland

Category: computer-and-mathematical

Remotebase is more than just a job search platform - we're building a remote work community where you can thrive and succeed. We connect top tech talent with top clients and make it easy for you to find the job you want. So why wait? Join us and be a part of our bridge to success!

We are seeking experienced software engineers and coders to be part of the artificial intelligence (AI) revolution.

If you are an experienced software engineer, computer scientist, programmer, or just great at solving coding challenges (Codeforces, Sphere Online Judge, Leetcode, etc.), this may be the perfect opportunity for you.

Join our team in training AI models to excel at coding generation! We're seeking talented software engineers to work remotely on exciting projects. As part of this opportunity, you'll contribute to training generative artificial intelligence models, helping them become proficient coders and building the next generation of coding tools.
