Senior Software Engineer II - Remote - Poland

Apply Now

Company: Akamai

Location: Poland

Category: computer-and-mathematical

Are you a senior software developer who loves solving problems?

Does an opportunity to build solutions for a large-scale suit you?

Join our Data Engineering Team!

The Data Engineering team is part of Cloud Technology Group. It delivers cutting-edge cloud and edge networking solutions to the market. We design, implement, deploy and operate data streaming platforms. Our primary mission is to enable product teams to develop high-performing operationally safe and secure products.

Partner with the best

You will be part of a team that enhances platform core services and design and develop DevOps tools. They focus on 100% availability, three 9's performance and reliability SLOs for FedRAMP, GDPR and SOX-compliant data streaming platforms.

As a Senior Software Engineer II, you will be responsible for:

Contributing to the design and implementation of highly available, scalable, and performant solutions

Building, integrating, and supporting FedRAMP compliance for data streaming services on Akamai Platform

Designing and developing DevOps tools to make the software delivery system run seamlessly

Developing processes and tools to monitor, analyze, maintain and improve streaming data pipelines usability and observability

Automating operational tasks, and streamlining day-to-day work with focus on FedRAMP and SOX compliance

Do what you love

To be successful in this role you will:

Have experience as a system/ platform/ DevOps engineer with a focus on cloud services

Have software development experience using two out of Golang, Python, Java and C/C++

Be familiar distributed systems and Linux networking, including TCP/IP, SSH, SSL and HTTP protocols

Have working knowledge of DevOps practices and CI/CD tools like Helm, Ansible, Terraform, Puppet, and Chef

Be an effective communicator, able to resent to various stakeholders across our business

Be responsible, motivated, able to work with little supervision

Work in a way that works for you

FlexBase, Akamai's Global Flexible Working Program, is based on the principles that are helping us create the best workplace in the world. When our colleagues said that flexible working was important to them, we listened. We also know flexible working is important to many of the incredible people considering joining Akamai. FlexBase, gives 95% of employees the choice to work from their home, their office, or both (in the country advertised). This permanent workplace flexibility program is consistent and fair globally, to help us find incredible talent, virtually anywhere. We are happy to discuss working options for this role and encourage you to speak with your recruiter in more detail when you apply.
