

Senior Software Engineer

[Apply Now](#)

Company: avenga

Location: Poland

Category: computer-and-mathematical

This is your mission

Ingest as a Service enabling consistent data extractions and loading into the data lake

Curation as a Service enabling curations and transformations to be run, logged, tracked and audited with a simple configuration object

Audit as a Service to enable full data auditing and validation of data assets in the data lakehouse

Retention as a Service to support hosting historical data balancing data access, compliance, and cost management

Work with new technologies like Snowflake including Snowpark with Python, Google Cloud Platform, Airflow 2, Apigee, Docker, Kubernetes, Apigee, and Terraform

Continue to refine the Data Vault and build new data marts using dbt_cli

Design and implement a solution to support real time event streams, including analytical value, from our platform team

What you bring along

5+ years of experience in back-end software development or related roles, with a focus on data and cloud platforms

You enjoy and have experience with large volume data pipelines, cloud databases, real time

data events, and API development and designs

You are passionate about data, software engineering, DevOps, and the cloud

You have focused on designing and implementing software solutions in a cloud environment, preferably Google Cloud Platform

Security, Trust, and Dependability are key elements of your designs

You have experience programming with Python, specifically Python3

You have worked with Cloud Databases: Snowflake, BigQuery, FireBolt, or Redshift

Your benefits

Private medical care

Individual training budget

Cafeteria system

Psychological care

Sports plans and sports teams

Life insurance

Possibility to change the project

Dedicated income protection and third-party liability insurance for IT professionals

Opportunity to develop competencies in Competence Centers

Team-building events

Support in day-to-day work (in project-related topics and administrative/HR matters)
