Company: Plat4mation

Location: Poland

Category: computer-and-mathematical

Senior Technical Consultant

Are you looking to broaden your IT career horizon and become part of a team of Platform-as-a-Service (PaaS) specialists? And would you like to combine your technical skills with managerial responsibilities like coaching Junior Consultants? Then the role of Senior Technical Consultant might be the one for you!

What will you do?

As a Senior Technical Consultant, you will be part of a team of enthusiastic Platform-as-a-Service (PaaS) specialists. Based in our virtual office in Poland or on-site at the customer, you will be working on high impact and challenging projects at large national and international organizations in the financial, energy, telecom and high technology industries.

All of our consultants work on projects that are focused on delivering maximum value to the customer. Depending on the project, you will work on defining PaaS strategies/business cases, actively implementing a platform that will automate customer processes via innovative, custom platform applications. Therefore, it is crucial that you are both IT- and business-oriented, since this position requires you to connect to both worlds.

To do your job with the required quality, we will provide you with continuous training and coaching to ensure you gain the necessary skills in the area of Platform-as-a-Service. We strongly believe in knowledge sharing and as such, this is one of our greatest assets.

Combined with the experience of our colleagues and partners, we will support you in doing a great job. In addition, you also get the opportunity to contribute to overall company success through your knowledge contribution. Depending on the type of project, a Senior

Technical Consultant will be involved in the following tasks/responsibilities:

Translate functional requirements into technical designs by always keeping focus on platform performance, maintainability and upgradability

Safeguard technical implementation quality based on prescribed designs

Build solution designs in line with implementation best practices of ServiceNow and internal Plat4mation implementation guidelines

Make sure Junior Consultants adopt and adhere to implementation guidelines

We ask

A bachelor's or master's degree in computer science or Information Technology

At least 3 years' work experience in as a Technical Consultant

Strong analytical skills

Fluent in English; German or French is a big plus

Good communication skills and result-driven

Creative mind and a problem-solving way of working

Passionate about technology

Living in or willing to move to Poland

Willing to travel within Poland

What's in it for you

Competitive salary

Bonus based on company performance (if 100% target achieved)

Pension scheme

Laptop, internet, transportation and phone allowance

A modern, flexible and multicultural workplace at an innovative and global company

Ambitious and kind colleagues from all over the world

A challenging position with lots of room to grow with ongoing training courses and coaching

Our culture

Working at Plat4mation evolves around working from your internal drive to make a difference for people in combination with having fun. We always go the extra mile to deliver on what we promise! Joy is what connects us and what drives us to get the best out of ourselves. That's why we host several Fun4U activities each year, like a global hackathon, drinks and inspiring lunch sessions (check out our !).

Your development is our number one priority. This means you get room to grow. We strongly believe that personal development and ambitions are key to our company's success. Because when you keep learning, you continuously improve yourself. That's why we coach you on the job, but also help you to explore and develop your interpersonal skills.
