

Senior UX Designer

[Apply Now](#)

Company: Epam

Location: Poland

Category: computer-and-mathematical

Description

Are you ready to make your mark at EPAM's design studio in Poland? We're on the lookout for a **Senior UX Designer** to join our team, with possible locations including Warsaw, Krakow, Gdansk, and Wroclaw. The beauty of this role? It offers remote options, with the exciting potential to transition to a hybrid model, ensuring flexibility and balance for our team members.

SEE YOURSELF IN THIS ROLE

As a Senior UX Designer, you'll be at the center of a vibrant community of over 70 designers in Poland, who are part of nearly 2, multidisciplinary experts spread globally. Passionate about using design to craft meaningful customer experiences, your approach to challenges with optimism, prioritization of action, and embrace of both success and failure as opportunities for growth are highly valued.

If you're someone who loves to share your skills, learn from others and champion the power of design, apply and join us today!

What Youll Do

Engage with clients to understand their business goals and objectives

Validate and refine your ideas through stakeholder and user feedback

Create and deliver a range of UX artifacts, from user flows to prototypes, tailored to project needs and optimized for various devices and interfaces

Participate in discovery and research activities, including user interviews and competitor analysis

Facilitate design workshops and document client requirements to support project deliverables

Collaborate with front-end developers and architects to ensure the feasibility of design solutions

Provide accurate estimations and maintain transparency in workload management within the design team

Mentor junior designers and contribute to their professional growth

What You Have

A minimum of 5 years' experience in design

Proficiency in research-based design processes and the ability to produce design specifications and prototypes

Strong theoretical knowledge in areas such as composition, color theory, typography, and design styles

Ability to synthesize and communicate research findings and design concepts effectively

Ownership of all design deliverables on a project, including experience maps, user journeys, and interaction models

Exceptional storytelling and presentation skills

Strong conceptual and systematic thinking, with the ability to provide constructive feedback and justify design decisions

Upper-intermediate or higher proficiency in English (B2 level)

Nice to have

Experience in project result control and measurement

Skills in team management and conflict resolution

Background in pre-sale activities

Proficiency in visual/graphic design

High-level understanding of front-end development

Experience in enterprise-level projects

Familiarity with establishing Design Operations and creating design systems development methodologies

We Offer

We gather like-minded people : Friendly team and enjoyable working environment

Engineering community of industrys professionals Flexible schedule and opportunity to work remotely within Poland Chance to work abroad for up to 60 days annually Relocation within our 50+ offices

We provide growth opportunities Outstanding career roadmap Leadership development, career advising, soft skills and well-being programs Certification (GCP, Azure, AWS) Unlimited access to LinkedIn Learning, Get Abstract, OReilly and Cloud Guru Language classes on English and Polish for foreigners
