Software Engineer C# in Test

Poland

Job Description

We are looking for an experienced C# Software Engineer in Test to join a global engineering and manufacturing leader in technology that does cool stuff that matters. In this role you will focus on test automation and software development for our satellite-based positioning service software solutions. You will have the opportunity to solve challenging problems related to enabling high capacity, high reliability, scalability, and configurability.

Your technical expertise will support our business initiatives and impact the end-user's experience. You will be working in an international environment using the latest cutting-edge technologies that are the backbone of Hexagon's 24/7 HxGN SmartNet correction services.

This appeals to you

Designing and implementing solutions for a high-end software with a wide range of technologies with a focus on test automation.

Develop and execute automated tests using C#, and other tools.

Analyse test results and report issues and defects.

Collaborate with the development team, the QA team and the product owner to review requirements and provide feedback.

Participate in code reviews and code quality initiatives.

Working in an agile environment with a stable product release cycle.

Close collaboration with product management working on the leading GNSS corrections provider SmartNet enabled by Leica Spider Software.

Our tech stack: C#, Windows, Visual Studio, Git, Resharper, Azure, Teamcity

This is you

Bachelor's degree in computer science, engineering, or related field

At least 5 years of experience in software development, preferably in an agile environment.

Proficient in C# and object-oriented programming.

Experience with Selenium, NUnit, or other testing frameworks.

Experience in developing web applications.

Knowledge of testing techniques and tools.

Experience in Docker and Kubernetes would be beneficial.

Strong analytical and problem-solving skills.

An open communicator, a team player in an international environment and a pro-active mentality.

Passion for quality, software, technology and recent innovations and customer satisfaction.

Fluent in English (written & spoken).

We offer:

International collaboration with diverse teams

Hybrid work (2 days in office, 3 days remote)

80% Tax-Deductible Costs (Autorskie Koszty Uzyskania Przychodu)

LuxMed private medical care

Benefit sports cards (funding depends on the job grade)

WARTA group life insurance

Individual training plan established with the Manager.
