

## Software Engineer I Fraud

[Apply Now](#)

Company: Affirm

Location: Bialystok

Category: computer-and-mathematical

Affirm is reinventing credit to make it more honest and friendly, giving consumers the flexibility to buy now and pay later without any hidden fees or compounding interest.

We are looking for a highly motivated Junior Software Engineer specializing in Backend Development to build tools that empower operations and compliance orgs by helping identify, mitigate, and report fraudulent and suspicious activity. In leading this team you'll help Affirm be compliant by building a global sanctions screening engine, case management system, and Anti-money laundering risk rating model.

Are you passionate about software engineering and eager to make a real-world impact? Join us on a journey where your coding skills will shape the future of finance.

### What You'll Do

Work cross-functionally with colleagues in Machine Learning, Product, Compliance, Analytics and Fraud Ops teams to set and execute our financial crimes mitigation strategy and improve Fraud Operations efficiency.

Write high-quality code **Python** that can be easily understood and leveraged by others.

Build APIs and workflows to work within micro-service and event-driven architectures.

Review others' work and provide constructive feedback in order to maintain high and consistent quality standards across teams.

## What We Look For

Bachelor's degree in Computer Science, a related field, or equivalent training/fellowship/work experience.

Experience with **Python** is a plus.

Familiarity with deployment and automated testing frameworks.

Ability to collaborate with your team in a fast-paced environment.

Good sense of **ownership** and **accountability** . You are not afraid to tackle challenges head-on and take responsibility for innovative solutions.

Passion and drive to change consumer banking for the better!

We offer a competitive package, with some highlights listed below. However, the given figures are not guaranteed compensation ranges; rather, they are unbinding, approximate indications of what the salary may be for your awareness. The actual salary may be less than the lower range or greater than the upper range, depending on skills and experience. No employee is guaranteed salary at the amount of the lower range.
