

## Software Engineer (.NET) - eBilet

[Apply Now](#)

Company: eBilet Polska sp. z o.o.

Location: Poznań

Category: computer-and-mathematical

### Job Description

#### **A hybrid work model requires 1 - 2 days a week in the office**

eBilet is the leader in online ticket sales in the cultural and entertainment industry in Poland. We cooperate with the largest national and international event organizers, providing services for individual and corporate ticket sales, as well as promotion and comprehensive event management. We offer ticket sales and entry control systems for all cultural and sports events. We provide our organizers and partners with complete technological solutions for current editions and sales trend tracking. Since 2019, we have been part of the Allegro Group.

Do you want to see how the eBilet team works? Check it out:

#### **We are looking for people who:**

Have a Bachelor's Degree in Computer Science/Information Technology

Have deep knowledge of .NET

Have proficiency in using SQL

Are familiar with containerization (Docker and Kubernetes)

Want to be proud of the code they write but are also willing to accept feedback and share their knowledge during code reviews

Are eager to continuously develop their skills and expand their knowledge

Know English at B2 level

**Additionally, we offer:**

Well-located office (with fully equipped kitchens and bicycle parking facilities) and excellent working tools (height-adjustable desks, interactive conference rooms)

A wide selection of fringe benefits in a cafeteria plan – you choose what you like (e.g. medical, sports or lunch packages, insurance, purchase vouchers)

English classes that we pay for, related to the specific nature of your job

16 or 14 MacBook Pro with M1 processor and, 32GB RAM or a corresponding Dell with Windows (if you don't like Macs) and other gadgets that you may need

Working in a team you can always count on — we have on board top-class specialists and experts in their areas of expertise

A high degree of autonomy in terms of organizing your team's work; we encourage you to develop continuously and try out new things

Hackathons, team tourism, training budget and an internal educational platform, MindUp (including training courses on work organization, means of communications, motivation to work and various technologies and subject-matter issues)

If you want to learn more,

**In your daily work you will handle the following tasks:**

You will develop and maintain microservices in the .NET ecosystem

You will work with Azure DevOps for maintaining source code

You will be responsible for creating tables, stored procedures and making schema changes in SQL Server databases

**Why is it worth working with us?**

We use the latest version of .NET 8 in the .NET ecosystem

Microservices in .NET are running on Kubernetes in the Microsoft Azure cloud

You can listen about .NET in Allegro in one of our – as you can see, we are happy to share our knowledge :)

The IT team is made up of over 1700 members who have shared their knowledge at multiple conferences, such as Dotnetos, Warszawskie Dni Informatyki, DevDays, Code Europe, and co-create a blog:

We practice Code Review, Continuous Integration, Scrum/Kanban, Domain Driven Design, Test Driven Development, Pair Programming, depending on the team

Technological autonomy: you get to choose which technology solves the problem at hand (no need for management's consent). You are responsible for what you create

Over 100 original open source projects and a few thousand stars on

We organize event, a 100% remote version of our offline Allegro Tech Talks meetups, and we make guest appearances at the invitation of such communities as Warsaw AI, JUG (Poznań, Łódź, Lublin, Wrocław), WG .Net, Dare IT, Women in Tech Summit

We focus on development as well. We organize hackathons and internal conferences (e.g. the annual Allegro Tech Meeting), our employees regularly participate in events both in Poland and abroad (Europe and USA), and each team has its own budget for training and study aids. If you want to keep growing and share your knowledge, we will always support you

**This may also be of interest to you:**
