Company: Schenker Technology Center Warsaw Sp. Z o.o.

Location: Poland

Category: computer-and-mathematical

Job description

You're proactively setting impulses and are meeting business ambitions by gathering information and elaborating needs by closely collaborating with stakeholders

You're supporting, analysing, and testing the required specifications for their correctness and usability while coming up with alternative solutions

You're closely aligning and collaborating with our Business Unit Land Transport as well as our Application Management and Solution Architects all aiming to improve your colleague's day to day work

You monitor the success of your solutions after implementation and drive continuous improvement

Taking on responsibility for your actions while creating your daily agenda and developing solutions meeting the demand

You're supporting test activities: Functional Unit Testing, Integration Testing and assist end users in User Acceptance Testing to validate the business scenarios

You provide input for training material and coordinate and conduct expert training in collaboration with the training team

Configuring the applications based on the country specific needs while managing data migration, planning and execution of cut-over activities for ECO rollouts is part of your role

You work in a young, international, cross-functional and distributed team and apply the latest methods of agile working

You hold a Bachelor's degree or higher in Information Technology, Computer Science, Business Management, or a related field, or an equivalent education and experience in logistics

With ideally multiple years of experience in logistics, Business Analysis or IT Demand Management, you bring valuable expertise to the role

Your technical understanding in large IT environments allows you to navigate complex systems

Your experience working in agile organizations, DevOps environments, and continuous integration setups enables you to thrive in dynamic settings

Possessing strong intercultural competence, a global mindset, and excellent communication skills and your willingness to travel showcases your dedication to driving global impact and fostering strong relationships

You are fluent in English, both written and spoken – German and/or Polish or any other European language skills are beneficial for this role

You are highly motivated and bring intrinsic curiosity to gathering and consolidating information to continuously improve the business
