Company: MileIQ

Location: Poland

Category: computer-and-mathematical

About Us

At the heart of our mission, we are revolutionizing mileage tracking for tax purposes, leveraging technology to create seamless, secure, and efficient solutions for our users. As innovators in our field, we harness the power of Python Fast API Apps and an extensive Azure Cloud environment to deliver unparalleled service.

The Opportunity

We're seeking a DevOps Engineer who is not just looking for a job, but a mission. Someone who sees the future and wants to mold it. You're not just automating processes; you're setting the stage for the next wave of innovation in mileage tracking.

Requirements

Your Role

Architect Scalable Solutions: Utilize Azure services (AKS, SQL, Key Vault, etc.) to build a cloud infrastructure that scales effortlessly with our growth.

Lead with Automation: Enhance our CI/CD workflows using GitHub Actions, and spearhead our transition to ArgoCD, optimizing deployment for speed and reliability.

Drive Operational Excellence: Use Terraform for IaC to streamline infrastructure management, ensuring a flawless, efficient environment for our applications.

Be a Visionary: Identify emerging technologies and practices that can elevate our platform, driving innovation and setting new industry standards.

Skills and Experience:

5 - 7 years of experience in a highly scalable cloud environment

Expertise in Azure Cloud and its ecosystem, with a track record of deploying and managing scalable applications.

Proficient in IaC, especially Terraform, to manage cloud resources efficiently.

Experience in Kubernetes, Helm, Kustomize, and similar tools for managing containerized applications.

Familiarity with CI/CD tools, particularly GitHub Actions, and the desire to evolve our deployment processes.

A proactive approach to monitoring and performance optimization, preferably with New Relic

Nice to have:

MLOps experience

Who You Are:

A visionary, always looking ahead to how we can leverage technology to solve problems and improve our service.

A problem solver, who thrives on overcoming challenges and continuously improves our operations and infrastructure.

A team player, who believes in sharing knowledge and working together to achieve ambitious goals.

A pioneer, driven by the opportunity to innovate and lead the industry forward.

Why Join Us:

Impact: Be at the forefront of a company transforming a necessary task into a seamless experience, making a tangible difference in our users' lives.

Innovation: Work in an environment that not only welcomes but demands innovative

thinking and a creative approach to challenges.

Growth: Join a team where your ideas and contributions directly shape the company and its trajectory.

Culture: Thrive in a culture that values vision, execution, and the ongoing pursuit of excellence.

Join the Journey:

If you're driven by innovation, and ready to shape the future of mileage tracking, we want to hear from you. Let's revolutionize together.

Benefits

Connectivity Reimbursement

Annual Productivity Allowance

Annual Wellness Allowance

Flexible PTO and Sick time
