About the project

Global Enterprise Risk Management (ERM) is a sub function of Group Risk. Its purpose is to make sure HSBC understands and is in control of its non-financial risk position. In addition, the function provides resilience risk stewardship to global businesses, functions, and entities we operate in.

Resilience Risk (RR) Specialists provide expert advice covering specific RR risk lens to ensure high quality advice, expertise and guidance is available across all the risk types of technology (including cyber) risk; data and information security risk; third party risk; contingency risk; physical security risk; building unavailability risk; workplace safety risk; payments and transaction processing risk.

Enterprise Risk Management (ERM) is a sub function of Group Risk. Its purpose is to make sure HSBC understands and is in control of its non-financial risk position. In addition, the function provides resilience risk stewardship to the Regional Business and Functions and the entities we operate in.

Your responsibilities

Working with the ERM Head of Technology and Cyber Security Risk and Operational Resilience, Europe to develop an assurance and oversight plan to provide an overarching, independent and objective view of the management of Technology and Cyber risk in Europe.

Completing analytical assessments and opining on the control environment of the First Line of Defence (FLOD) within Businesses and Regions.

Ensure the integrity and timely completeness of risk and control identification, assessment and documentation.

Provide advice, review and challenge on technology and cyber issues and actions owned in Europe, ensuring that root cause analysis and path to green are appropriate and recorded in the system of record.

Completing analytical assessments and opining on the control environment of the First Line of Defence (FLOD) within Businesses and Regions.

Conduct thematic reviews to ensure that risk and control environment is commensurate with the nature of operations.

Support with embedding the Risk Management Framework (RMF) and provide advice, guidance and challenge on relevant framework developments.

Oversee the FLOD assessment of technology and cyber risks as part of high-risk change initiative.

Conduct regulatory horizon scanning, review local Regulatory Developments and work with Regional ORR to attest adherence to the Global Policies.

Our requirements

Broad understanding of Non-Financial Risk framework and the role and responsibilities of Risk Stewards.
