Company: Metrosoft

Location: Kraków

Category: computer-and-mathematical

Metrosoft® offers solutions allowing asset managers and service providers to transition all aspects of shareholder services and distribution to digital service economy. Fundsphere® supports an entire digital investor journey from onboarding, through ongoing support and maintenance, to trading and reporting. Real-time KYC, list screening and transaction monitoring ensure effective oversight and control of risks. Fundsphere, trusted by global asset managers and service providers, is now also available as Software-as-a-Service (SaaS).

This role is for you if you:

Demonstrate experience in design, prototyping and information architecture for enterprise grade applications in the financial industry.

Have a Transfer Agency and AML/CTF knowledge.

Have an excellent command of English.

Have the ability to create detailed solution descriptions with great quality and precision.

Have experience in user research and modeling, interviews, A/B testing and other UX techniques.

Are proficient with prototyping tools (e.g. Adobe XD, Figma). Have the ability to create prototypes of varying fidelity levels.

Have experience with Design Systems (creation and development).

Worked with HTML, CSS and Java Script before and modern front end frameworks

Are experienced in Scrum / Agile development.

Have the ability and empathy necessary to solve end users' problems.

Are an excellent verbal and visual communicator, with the flexibility and patience to try new things.

Are able to cooperate effectively with other team members, graphic designers and stakeholders.

Your role will be to:

Prepare solution designs in form of interactive prototypes

Participate in meetings with all stakeholders to understand business needs (travel involved).

Communicate with stakeholders regularly to validate concepts and prove wireframes at each stage reflect business needs.

Work closely with scrum team members to build the final solutions.

Design new and improve existing solutions to disrupt the fund management industry .

Create wireframes, mockups, sometimes clickable prototypes.

Collaborate closely with analysts, developers, sales and marketing team.

Support UX culture in the company.

What we offer:

Direct cooperation with largest global financial institutions.

A real impact of solutions you design on fund industry change.

Day to day contact with the business and ability to expand your knowledge.

Agility and dynamism of the environment you work in.

Space for creativity.

Flat structure.

Integration events (e.g. Metrosoft's weekend, ski, Christmas dinner).
