

## UX Designer

[Apply Now](#)

Company: StoneX

Location: Kraków

Category: computer-and-mathematical

### Overview

Permanent, full-time, hybrid (3 days per week in Kraków office)

#### **Connecting clients to markets – and talent to opportunity**

With 4,300 employees and over 400,000 retail and institutional clients from more than 80 offices spread across five continents, we're a Fortune-100, Nasdaq-listed provider, connecting clients to the global markets – focusing on innovation, human connection, and providing world-class products and services to all types of investors.

Whether you want to forge a career connecting our retail clients to potential trading opportunities, or ingrain yourself in the world of institutional investing, The StoneX Group is made up of four segments that offer endless potential for progression and growth.

**Business Segment Overview:** Empower individual investors – and yourself – in the world of retail through a range of different financial products rooted in innovation and market intelligence. From FX and CFDs to precious metals, master an exciting world of wealth management tools.

**Position Purpose:** We seek a passionate and creative UX Designer to help us deliver market-leading user experience across mobile and web. As a UX Designer, you will collaborate with cross-functional teams to create intuitive and visually appealing digital products that meet our users' expectations. You must also effectively communicate your design thinking to the team and broader business and manage stakeholder expectations.

### Responsibilities

**Primary duties will include:**

Drive creative and holistic design thinking for a diverse suite of web and mobile applications and devices.

Generate and iterate on design concepts, wireframes, and prototypes to effectively communicate and validate design ideas.

Conduct user research, usability testing, and gather feedback to inform design decisions and continually improve the user experience.

Produce meaningful, comprehensive design documentation for information architecture, navigation, task flows, and components for mobile, Web and touchscreen point-of-sale systems.

Proactively participate in group design reviews to receive and provide feedback to ensure high quality designs and great customer experience outcomes.

Collate, contribute, and communicate insights to the business and stakeholders.

## **Qualifications**

### **To land this role you will need :**

At least 1 years of experience in middleweight position.

Proven experience use of Figma and auto-layouts.

Clearly and effectively communicate design processes, ideas, and solutions to other teams.

Be open to receiving feedback and constructive criticism.

A portfolio of your work with examples of user experience, interaction, and Information architecture - we are looking for the portfolio to reflect a wide range of skills (workshop facilitation, design thinking, wireframes, prototypes, research and testing)

Experience using Apple HUI and Google Material guidelines.

Be passionate about all things UX and other areas of design and innovation.

Research and showcase knowledge of the industry's latest trends and technologies.

Good understanding of user-centered design principles and methodologies.

### Working environment:

Hybrid (2 days from home, 3 days from the office); our Cracow office will be moved to St. Mogilska 35 in May, 2024
