Company: Manning Global AG

Location: Poland

Category: computer-and-mathematical

### Job Description

Our client, a leading global IT service provider, is recruiting for an UX Designer to join their business in Poland/Spain.

JD:

We are looking for a senior UX designer (unicorn) able to understand our business and technical requirements.

As well as be responsible for conceiving and conducting user research, interviews and surveys, and translating them into sitemaps, user flows, customer journey maps, wireframes, mockups and prototypes.

The UX designer will also be expected to design the overall functionality of the products, and in order to ensure a great user experience, iterate upon it in accordance with user-testing.

Responsibilities:

Consulting with clients to understand their goals.

Translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences.

Facilitate the client's product vision by researching, conceiving, sketching, prototyping and user-testing experiences for digital products.

Expertise in standard UX software such as Sketch or Figma.

Design and deliver wireframes, user stories, user journeys, and mockups optimized for a wide range of devices and interfaces.

Planning and conducting user research.

Conducting competitor and customer analysis.

Collaborate with other team members and stakeholders.

Requirements:

Three or more years of UX design experience . Preference will be given to candidates who have experience designing complex solutions for complete digital environments. A UX portfolio is expected.

Expertise in standard UX software such as Sketch and Figma.

Ability to work with clients to understand detailed requirements and design complete user experiences that meet client needs and vision.

Extensive experience in using UX design best practices to design solutions, and a deep understanding of mobile-first and responsive design.

A solid grasp of user-centered design (UCD), planning and conducting user research, user testing, A/B testing, rapid prototyping, heuristic analysis, usability and accessibility concerns.

Ability to clearly and effectively communicate design processes, ideas, and solutions to teams and clients.

A clear understanding of the importance of user-centered design and design thinking.

Ability to work effectively in a team setting including synthesizing abstract ideas into concrete design implications.

Excellent communication skills, English: C1 or C2.
