Company: Verisk

Location: Kraków

Category: computer-and-mathematical

Job Description

We are seeking a talented UX/UI Designer proficient in Figma to join our dynamic team.

The ideal candidate will have experience in prototyping to create intuitive and visually appealing user interfaces. As a UX/UI Designer, you will collaborate closely with cross-functional teams to translate user needs and business objectives into innovative design solutions. The UX/UI Designer will also contribute to the Figma Design Library used across the Relmagine platform and products, ensuring the consistency of the brand.

Principal Responsibilities and Duties

Collaborate with UX leadership, product management, and technology to develop informed design decisions for better outcomes.

Develop interactive prototypes from ideation and conception to final design solutions using Figma. Added points for ability to prototype in HTML/SCSS framework.

Advocate for the user with user-centered, empathetic design strategies.

Clearly communicate design decisions to peers and key stakeholders.

Participate in Agile Scrum Process to quickly iterate through designs and gain approvals from key stakeholders.

Participate in usability testing.

Report on project status to UX leadership and internal stakeholders.

Perform additional UX duties as required to support the insurance platform of products.

Qualifications

3+ years of previous experience in UX design and development.

A strong design sensibility for page layout, color theory, typography and aesthetics.

Solid understanding of web best practices, information architecture, usability, heuristics and accessibility.

Strong understanding of responsive design.

Up to date with the latest web trends, techniques, and technologies.

Proficient in design tools including Figma.

Familiarity with HTML/CSS, and the capabilities of web browsers.

Experience with facilitation/collaboration tools such as Jira, Miro, MS Teams.

Experience working with design systems.

Ability to multitask while maintaining attention to detail.

Consistently meets required deadlines.

Comfortable working closely with other designers, project managers and developers.

An eagerness to grow as a team and open to give and receive constructive feedback.

Good overall oral and written communication skills.
